REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Patentability is seen in, although not limited to: independent claim 1, all elements specifically claimed in combination with the feature of *flexible* solar cells for detecting laser shots on a target from a simulated weapon. The closest prior art of record does not teach or fairly suggest this feature in the combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
